TRAVEL DREAM EXPLORE

The company Parker Poland is a subsidiary of AH Parker & Sons (GB) Ltd., which was founded in 1886, incorporated in 1940 and active in Poland since the early 1970 s.

Over the years, Parker has become a well-established manufacturer and supplier of Rigid Inflatable Boats, with a size range from 5.10 to 16 metres and open or cabin versions.

Using the experience and skills from the production of the Parker Rigid Inflatable Boats, the company entered the market of sport, leisure and fishing boats. These range from 6 metre sport cruisers to 12 metre family leisure boats, and already now includes more than 20 different models.

To meet the ever-changing requirements of the global markets, Parker is introducing new models every year. This is all based on positive feedback received from Customers and Dealers.

Parker Boats are praised for their innovative shape, outstanding sea keeping abilities and most of all superb quality and sturdiness.

630 DAY CRUISER

It offers an ideal balance between style, comfort and safety and makes a superb sports day cruiser or cruiser with overnight accommodation.

630 BOW RIDER

Parker 630 Bow Rider has access to the bow via a central passage through the console. The control station is located on the starboard side.

Pages 6 → 11

690 BOW RIDER

The spacious cockpit is suitable for up to 7 people. It has U-shaped seating with room for a table, which can be converted into a large sunbed.

This has separate self-draining from the cockpit, so it stays dry whatever the weather. You can convert the bowrider into a large sundeck so your passengers can relax and enjoy the sunshine, or move the cushions to create a perfect fishing spot.

Pages 12 → 15

720 ADVENTURE

The new generation day cruiser and weekend cruiser.

Parker 720 Adventure has a larger cockpit to improve comfort for the skipper and his passengers; many improvements to the canopy storage and canopy design to make boating life simpler; a canopy design with Bimini top; more and larger storage compartments (including a large locker under the cockpit deck).

Pages 16 → 21

780 ESCAPE

Parker 780 Escape cruiser is a large day trip and weekend boat. Comfort on overnight trips starts in the cabin. The striking-looking Parker 780 Escape cruiser provides comfortable accommodation for 2 people below deck and has a separate storage compartment under the cockpit with access from the cabin.

A closed toilet compartment is standard, as well as an electric pump for black water.

Pages 22 → 27

800 CRUISER

The cockpit is the most important part of a large, functional, and successful day cruiser and weekend boat!

The cockpit is large, flexible, and functional, with both sun-lounger and seating facing the bathing platform. Below deck, there is plenty of space and comfort for day and weekend trips. The 800 Cruiser can sleep four persons and has a large, spacious toilet room below deck. The customer decides whether to fit out the boat for day cruising or for weekend trips.

Pages 28 → 35

850 VOYAGER

This is the perfect day cruiser for up to 10 persons. It is also a great boat for weekend trips, catering for up to six persons: or four persons on longer trips. The cockpit is spacious and has flexible seating arrangements. There is a large bathing platform with its own sun-lounger, another sun-lounger in the cockpit, a proper galley perfect for weekend or longer trips, berths for four to six persons below deck and a separate bathroom with toilet and shower.

Pages 36 → 43

**630 DAY CRUISER
630 BOW RIDER**

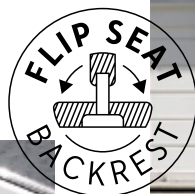

As part of Parker Boats leisure sports range, the Parker 630 Day Cruiser and Bow Rider have sleek and contemporary lines. Both boats are based on the same hull and share the same outstanding seakeeping ability.

FLIP SEAT BACKREST

Underneath the cushions, there is a large storage space. On the rear deck, the adjustable back rest allows you to use the bathing platforms in comfort or enjoy the view of the sea or a towed skier.

Parker 630 hull is designed for high speeds and reaches nearly 35 knots with a 115 HP engine and 42 knots with a 150 HP. The hull shape also allows the boat to make tight turns without losing, even for a moment, its sense of security.

630 DAY CRUISER

As part of the new Parker boat leisure sports range, Parker 630 Day Cruiser has sleek and contemporary lines. It offers an ideal balance between style, comfort and safety and makes a superb sports day cruiser or cruiser with overnight accommodation. Thanks to its central console and a streamlined hull, the Parker 630 Day Cruiser is a great first boat for those who require a boat with excellent handling and a comfortable ride. Powered by a single outboard engine, it is a substantial weekend day cruiser that combines outstanding performance with a great sense of security and

manoeuvrability.

Designed with an extensive amount of stylish and comfortable deck space and a safe bathing platform, the 630 Day Cruiser has a capacity for up to 7 people. There is ample storage space plus accommodation with a double bed and optional marine WC in the forecabin. In the cockpit, an L-shaped sofa with a central table can be converted into a sunbed. The passenger seat incorporates a system enabling the backrest to be tilted to enlarge the area of the table or the sunbed. The rear seat incorporates a similar mechanism in the backrest that allows you to sit facing the stern platform when children get in and out of the water, or when someone is water skiing. The 630 Day Cruiser makes a fun weekend companion for spending quality time with family, friends or for getting away on an intimate weekend.

630 BOW RIDER

Parker 630 Bow Rider has beautiful and stylish lines. Access to the bow is via a central passage through the console. The control station is located on the starboard side. A V-shaped sofa is placed at the bow, with a space for a table or for an optional sunbed. Underneath the cushions, there is a large storage space. On the rear deck, the adjustable back rest allows you to face forward or aft and use the bathing platforms in comfort or to enjoy the view of the sea or a towed skier.

Parker 630 Bow Ride hull is designed for high speeds and reaches a speed of nearly 35 knots with a 115 HP engine and 42 knots with a 150 HP. The hull shape also allows the boat to make tight turns without losing, even for a moment, its sense of security.

CANOPY STORAGE

The design of aft decks on traditional boats did not allow for socialising. On sunny days, Parker 690 Bow Rider has space to store away the aft deck canopy and has a spacious cockpit giving easy access to the bathing platform.

690 BOW RIDER

The 690 Bow Rider ensures excellent performance in complete safety even at high speeds with its most powerful motor. Parker 690 Bow Rider is designed for an outboard motor between 150 to 250 HP. With the most powerful 250 HP Verado Pro outboard, speeds above 45 knots can be reached.

An even
sportier
boat.

720 ADVENTURE

The stunning new Parker 720 Adventure will replace one of Parker's most successful models over the last five years: Parker 690 Day Cruiser. It's never a good idea to completely change what is a winning design. But it's always sensible to make developments and improvements.

ERGONOMIC CONSOLE

The ergonomic console can accommodate up to a 12-inch plotter screen plus a lot more useful electronic equipment. The front table area (which can be converted into a sunbed), and the optional side benches create a comfortable environment for relaxing with family and friends.

720 ADVENTURE

With the new 720 Adventure, we have built upon and developed the great qualities that made the 690 Day Cruiser such a hugely popular boat in this segment of the European market. Through close dialogue with our customers and dealers, we have designed an even sportier, more comfortable boat that is even more ideally suited to European boating.

	LOA length overall	6.99 m

Made for all conditions.

780 ESCAPE

This cruiser is a large day trip and weekend boat. Comfort on overnight trips starts in the cabin. The striking-looking Parker 780 Escape cruiser provides comfortable accommodation for 2 people below deck and has a separate storage compartment under the cockpit with access from the cabin. A closed toilet compartment is standard, as well as an electric pump for black water.

FLIP SEAT BACKREST

The rear seat incorporates a mechanism in the backrest that allows you to sit facing the stern platform when children get in and out of the water, or when someone is water skiing.

780 ESCAPE

Parker 780 Escape cruiser is a large day trip and weekend boat made for all conditions. Comfort on overnight trips starts in the cabin. The striking-looking Parker 780 Escape cruiser provides comfortable accommodation for 2 people below deck and has a separate storage compartment under the cockpit with access from the cabin. A closed toilet compartment is standard, as well as an electric pump for black water. In addition, it is possible to add extra cupboards, furniture, and additional storage space if desired, as well

as an extra fridge drawer in the forward cabin. For day trips, there is plenty of room for 7 people on board, and with a bathing platform and ladder, fine weather days can be fully enjoyed. Parker 780 Escape is designed to give great driving pleasure. The hull is designed for high speed and sporty driving. With Parker's latest twin-step hull design, the boat gets on the plane quickly. Keeping the engine size between 250 – 300 HP gives the best fuel economy and the most boating pleasure for the money.

	LOA length overall	8.80 m

800 CRUISER

The cockpit is the most important part of a large, functional, and successful day cruiser and weekend boat!

Below deck, there is plenty of space and comfort for day and weekend trips. The 800 Cruiser can sleep four persons and has a large, spacious toilet room below deck. The customer decides whether to fit out the boat for day cruising or for weekend trips.

Berths for 4 persons.

The boat has two full-size beds. One is in the fore part and the second is in the central part below deck.

TWIN STEP & RESIN INFUSED HULL

The hull features twin steps to reduce friction and fuel consumption, but also to increase top speeds.

Involves vacuum infusion moulding, sandwich composites and multiaxial reinforcement to save weight, increase stiffness and improve comfort.

800 CRUISER

The cockpit is the most important part of a large, functional, and successful day cruiser and weekend boat! The 800 Cruiser has the same cockpit layout and size as its big sister, the 850 Voyager and is mainly designed for the cruiser segment of the day cruiser market. The cockpit is large, flexible, and functional, with both sun-lounger and seating facing the bathing platform. Below deck, there is plenty of space and comfort for day and weekend trips. The 800 Cruiser can sleep four persons and has a large, spacious toilet room below deck.

The customer decides whether to fit out the boat for day cruising or for weekend trips. We have continued to build upon our successful concept with our optimised twin-stepped hull, integrated engine bracket and deep V-shaped bottom. Driving performance, sporty qualities and comfort are top priorities in day cruiser and weekend boats. This type of stepped hull with integrated engine bracket eliminates almost all the planing threshold, reduces the need for engine power, increases top speeds and improves fuel economy.

850 VOYAGER

This is the perfect day cruiser for up to 10 persons. It is also a great boat for weekend trips, catering for up to six persons: or four persons on longer trips. The cockpit is spacious and has flexible seating arrangements. There is a large bathing platform with its own sun-lounger, another sun-lounger in the cockpit, a proper galley perfect for weekend or longer trips, berths for four to six persons below deck and a separate bathroom with toilet and shower.

Berths
for 4/6
persons &
a separate
shower.

HIGH QUALITY

On the main deck there's a large seating area and galley with a drinks cooler/fridge that is accessible from the cockpit. Lighting plays an important part in creating the right ambiance to make life easy and enjoyable.

850 VOYAGER

Parker 850 Voyager is a classic boat with a new and modern hull design. With an impressive range of modern technology, it will lead the way for Parker Boats leisure range.

At the same time, the use of outboard technology allows Parker to provide significantly lower service and maintenance costs for boaters.

This is the perfect day cruiser for up to 10 persons. It is also a great boat for weekend trips, catering for up to six persons: or four persons on longer trips. The cockpit is spacious and has flexible seating arrangements.
