

What prove to be, in memory, the adventures of a lifetime.

Who can say when first you heard? The multicolored minute when the open water spoke, and the dream began. Try now. To this day, can you report the moment? Can you reach back and listen again to that faint call, a sun-flecked whisper -- relentless as a mother's summons -- coming from just beyond the farthest thing a kid could ever hope to see.

At Cobalt, we build boats that answer the call. It is a relationship like no other – owners and their boats. It is that first grip at the helm that releases a sense of assurance down the spine. At that very moment...a promise is made. With each ride, with each cruise comes conversation, laughter and pure enjoyment afloat. At that very moment, a bond is formed on trust, but not just that, a type of trust that feels like family. And with that trust arises a certain lifestyle, an opportunity for families to come together and enjoy what life is truly about. It is a type of confidence that only a Cobalt can instill in its owner.

Our Cobalt family believes we have a unique opportunity to enrich life, to help create life-long memories, to arouse a passion for the boating lifestyle. We vow to work tirelessly, creating the most innovative, well-engineered, and best performing boats imaginable. We vow to let our work be consumed by every little detail, every aspect of fit and finish.

This classic tradition will continue in our daily pursuit to build not just boats, but deep personal possessions. We will continue on with our philosophy of compromising absolutely nothing, especially when it comes to constructing piece by piece a watercraft that will create memories of a lifetime.

We are excited to share Cobalt's passions and why we do what we do for our customers everyday. You drive us to perform everyday. Thank you and welcome to the family.

Customer Inspired Innovation

Swim Platform Functionality

Cobalt's swim platforms are large, welcoming and safe, suspended just above the waterline for easy use in all water-borne activities. Oversized, polished stainless steel tubing wraps every platform to protect the boat when docking. Cobalt's exclusive and patented swim step requires only two easy flips: down to use, back to stow. The swim step makes boarding your Cobalt a breeze, and provides a perfectly cool resting area. Illuminate the platform above or below the waterline with option choices to suit your desires.

Industry Firsts and Real-World

Across five decades, Cobalt brought innovative functionality to the marketplace. Across five decades, other marine manufacturers have seen fit to copy the thoughtful design that has always defined our boats. Again this year, we will show an entire industry exactly the way to go.

- ☞ A Cobalt first: the integrated bow eye with a scuff plate for protection from trailer marks
- ☞ Cobalt was the first stern drive builder to feature the walk-thru transom, today, all our models are equipped with either a single or dual aft passageway for easy boarding
- ☞ Stainless-steel adjustable poles to secure and tighten bimini tops with our innovative built-in turnbuckle -- no fabric straps here
- ☞ Quick-release fender clips utilize stainless steel sockets for perfect placement and convenient deployment
- ☞ Cushioned storage lids with double-knuckled hinges to hold the lids open for easy access to the compartment below
- ☞ Our often-imitated, never-duplicated flip-lip seat bolster – the captain sits high and comfortable, enjoying the full thrill of the ride
- ☞ A safer latch for the windshield walk-thru, holding the door securely open – yet another Cobalt first
- ☞ Perhaps the most imitated component of performance in the boating industry, Cobalt's extended running surface for quicker planing, firm and true turns, minimized bow rise, and greater lift at the stern

Finely Detailed Interiors

The technical word is “interface,” those sensory exchanges between boat and owner, those points of contact so fundamental to the enjoyment of a day on the water, so critical to the determination of a boat’s long-term value. Glance at any cockpit and witness the full effect of a Cobalt interior – straight, smooth, uniform, and very, very good looking. Better yet, cruise a Cobalt at first opportunity for some meaningful, memorable interfacing of your own.

Start at the helm, where strength meets stylish strength. Rock-solid fiberglass substructure rides beneath upholstered good looks, as optional Ebony Macassar trim adorns the helm’s metal panels. The instrumentation and its mountings borrow from aircraft and jewelry designers alike. Stainless steel switch mechanisms are firm, sure, and sturdy.

Cobalt upholstery involves the fingers. Butter-soft and bull-strong, as tactile as they’re easy on the eye, always double-fastened with both adhesives and staples, and stitched with meticulous precision. Underfoot, the carpet or optional Seagrass flooring is snap-down/snap-out, rubber-backed, backed again with skid resistant no-flex composite flooring under all, and heavy. Heavy far beyond any marine standard.

- ⦿ Precision-sewn interior details
- ⦿ Double-needle stitching
- ⦿ Seats that convert to a sun lounge
- ⦿ Deep bow and cockpit seating
- ⦿ The warmth and feel of premium materials
- ⦿ A hand-crafted helm with detailed double-stitching
- ⦿ Ebony Macassar trim
- ⦿ Digital multi-function gauges
- ⦿ Aircraft-inspired stainless switches
- ⦿ Honeycomb composite core integrated in flooring – optimized strength-to-weight ratio, with improved sound and vibration dampening

Exceptional Methods of Construction

At Cobalt the hull means hand-work, with every layer rolled a by craftspeople who believe that yet one more careful pass just can't hurt. And so the layers accumulate, eight altogether on the hull bottom and a full sixteen at the keel. Reinforced with Kevlar® and then strengthened again with Spraycore®, the hull's structure hardens into the critical component of the legendary Cobalt ride

The quality of the mold equals the quality of the finish, and so hand-waxing follows after every other part. Old finishes are reworked after every ten parts. No power buffers are allowed, and therefore no unsightly marks or patterns are left behind. And because time in the mold ensures integrity, flexible strength, and year-to-year dependability, the long hours spent in the mold matter even more. Every Cobalt hull cures and cures a while longer – well beyond normal industry standards.

Cobalt longevity is obvious, some of the reasons why less so. Invisible composites, hyperlight and hyperstrong, compose every Cobalt transom. No wood there, not in that all-important forcefield. No wood either in the polypropylene structural honeycomb of the floor. Nor in the all-fiberglass stringers where a methacrylate bonding compound adds lifelong permanence. No wood in the water-impervious roto-cast seat bases.

- ☉ Z-Thane™ strengthening, protective barrier coat in the hull – A Cobalt exclusive
- ☉ Completely hand-laid hulls, reinforced with Kevlar™
- ☉ Composite construction on all structural components
- ☉ Cushioned lids with knuckled hinges for easy, open access to storage compartments large and larger still
- ☉ Exceptional hardware, largely stainless, over-sized, over-strong
- ☉ Graphics deep and strong in the gelcoat
- ☉ Integrated bow eye with a scuffplate for added protection
- ☉ Hand-lamination, up to 16 alternating layers of fiberglass mat and woven roving

10-5-3 Transferable Warranty

Ten Year Warranty Protection

Hull & Deck Structure: Floors, stringers, bulkheads, motor mounts, transom, all deck and hull joints

Five Year Warranty Protection

Engine: Internally lubricated parts

Stern Drive: Internally lubricated parts in upper and lower housings, stern drive control system: power steering pump, power steering cooler, TVM module, TVM cylinder, joystick

Intermediate Housing: Shaft, U-joints, bearings

Steering: Helm, rack, cable, pump, seals and gaskets

Power Trim: Pump, cylinders, solenoids, switches, seals and gaskets

Electrical: Alternator, voltage regulator, electronic ignition module, ignition coil, starter motor, wiper motor, engine wiring harness, courtesy lights, docking lights, battery switch, battery isolator, bow light, horn, anchor light, spotlight, blower motor, electric hatch motor and switch

Fuel Delivery: Fuel injection control units and injectors, fuel injection pump, fuel injector rails, fuel delivery pump, flame arrestor

Controls: Control box, neutral safety switch, cables

Instrumentation: Tachometer, oil pressure, volt gauge, hour meter, speedometer, engine temperature, trim gauge, fuel gauge, air/water temperature, digital engine function display

Accessories: Air conditioner, cockpit heater, engine battery charger, compass, depth finder, transducer and wiring harness, generator, refrigerator, galley sink and faucet, shore power, stainless steel deck railings, stainless steel rubrail, stainless steel hardware, stereo, amplifier(1), stereo remotes, satellite stereo components, LED cabin lighting, trim tabs, freshwater pump, toilet, stove, microwave, windlass

Electronics: Radar, GPS, VHF radio

Non-Defect Failures: Overheating, pre-ignition, detonation, scored pistons, scored cylinders, tuliped valves, carbonized rings, heat collapsed rings, burnt valves, bent valves, warped heads, heat cracked heads and block (excludes freezing), thermostat failures, sensor failures

Additional Benefits: Choice of towing, dock side assistance, hoist and lift out or pick up and delivery. Taxes, shop supplies, lubricants, coolants, filters, spark plugs, hoses, clamps, belts, engine tuning, and lake/sea trial when necessary for a covered repair.

Three Year Warranty Protection

Gelcoat Finish: Protection from stress cracks, air voids or blisters

Upholstery/Canvas: Protection from defective materials or workmanship

Components: Manufactured by Cobalt

Color Selections

Actual colors may vary due to the limitations of the digital process and the viewing device calibration. Consult your Cobalt dealer as equipment and specifications are subject to change without notice.

ALL WHITE

White hull and deck.

Tops and Covers

Color-matched and custom-tailored, Cobalt bimini tops, enclosures and tonneau covers are made of a premium acrylic marine canvas. This material is extremely strong and fade-resistant, with superior water resistance. Yet it breathes, resisting rot and mildew.

Bimini tops setup rock solid with Cobalt's easily adjustable stainless steel turn-buckle supports. Rigidity simply not found with the use of fabric straps.

The Premium Bimini Top with Easy-Fold stanchions (below) make storing or trailing your boat with the top in a lower position a simple one-person operation.

COBALT BOATS

 GATEWAY
SERIES

COBALT 200s

The 200s brings along all the nuances of design and instances of effortless performance once thought possible only in far larger boats.

A 20 foot boat that encompasses style, performance and comfort, the Cobalt 200s not only has sweet, sweet looks, but also provides convenience and function with every turn. Step aboard and notice maximized interior space – we call it Free Space Reclamation (FSR). And free space it becomes when you are out on the water with friends and family. With walk-about, lay-about, stow-away spaciousness at every turn, the 200s creates its own sort of simple luxury. From the standard digital instrumentation to the wraparound bow to the 89" wide cockpit with the convertible seating, the 200s adapts at a touch from tanning salon to a safe, secure seating environment. The sculpted hull speaks for itself, while the long, purposeful lines sweep and flow to catch a perfect light, the profile classic in every subtle detail.

And while we are talking about feature-richness here, let us not forget about the 200s standard extended swim platform with the available patented swim step. A revolutionary innovation that will go down in the record books. Take a look for yourself – we know you won't be disappointed.

200s

200s

The "S" Sport seating interior configuration offers the port-side passenger a choice of facing forward or aft.

220*S*

COBALT BOATS

GATEWAY
SERIES

COBALT 220*S*

The details of a great boat accumulate in ways that you may never notice. But feel free to imagine.

Come aboard the 220S and experience the comfort and convenience typically found only in far larger boats. Experience a spaciousness that maximizes flexibility in your use of the boat, thanks to Free Space Reclamation (FSR), Cobalt's studied minimization of heretofore unused space. The 220S makes idealized use of every square inch of its wide and sturdy stance, the stadium seating key to the easy accommodation of a dozen guests and their gear. And the swim step, of course, Cobalt's game-changing, patented contribution to safety, convenience, and accessibility makes boarding a breeze. Memories gather naturally under the 220's optional aluminum wakeboard arch – simply foldable, by the way – an addition that makes your boat as athletic as it is roomy.

Mention the word "athletic" and the 220S steps up to the plate. Big fun – the extended running surface hull design provides explosive hole-shots, easy and extended zooming, the tight, high-speed turns skiers and boarders want – while affording you some remarkable efficiencies in fuel management.

The S interior seating configuration combines an oversized, all-in-one cockpit layout with the amazing on-water performance that has become synonymous with Cobalt. Your co-captain can face forward in the traditional manner, or flip the seat down easily transforming the cockpit into a massive arena-style seating arrangement. The choice is yours.

220s

COBALT CS1

Redefining comfort and style.

From the clean classic lines of the Cobalt CS3, come all the same style in a slightly smaller package. Enter the Cobalt CS1. Perhaps it's the timeless good looks? The peerless ride and function? We say yes, yes and yes again. The 2017 Cobalt CS1 at over 22 feet is a model of efficient use of space. Inheriting the proven performance of the CS hull and graceful deck design, too. Sleek, simple and artful. Step inside and check out the detailed interior including the island sun lounge with a walk-thru transom, Cobalt-branded coaming pads, intricate colored stitching details, and digital helm instrumentation. Oh, and the Bluetooth sound system with six speakers – yes, that too may cause your audiophile guests to awe in your direction. Compliments will keep 'coming as your crew marvels at her innovative qualities – making you look savvy, smart. The CS1 is the perfect choice. A small boat for those who do not wish to compromise luxury or performance. The CS1 - built with pride in the heart of America, Neodesha, Kansas.

The American Beauty

There is something special about this one. Maybe it is because she comes from a legendary line, the CS3. Perhaps it is her timeless good looks? Her ease and function? We say yes, yes and yes again.

The 2016 Cobalt CS3 measures over 23 feet of wisely used space. She has a completely new hull and deck design, too. Sleek, simple and artful. Step inside and check out the detailed interior including the island sun lounge with either a dual or single walk-throughs, Cobalt-branded interior pads, intricate colored stitching details, and digital helm instrumentation. Oh, and the Bluetooth sound system with six speakers – yes, that too may cause your audiophile guests to awe in your direction. Compliments will keep a 'coming as your crew marvels at her innovative qualities – making you look savvy, smart.

The CS3 is the perfect choice. She appeals to those who do not wish to compromise luxury or performance. And now are the days that one should never compromise either. The CS3 - built with pride in the heart of America, Neodesha, Kansas.

COBALT BOATS

R SERIES

COBALT *R3*

**Exceeded expectations? Check.
Surpassed your wildest dreams?
Check. Check.**

This magnificent off-road vehicle has made its mark in the 23 foot segment. Yes, she is expansive, and then some, but the Cobalt R3 is much more than your typical 23 footer.

Let us begin with her physique. The R3 exterior profile is sleek and low. The transom, platform design and aft sunpad are sculpted beautifully creating a smooth and sexy profile. The sunpad backrest is convertible, and the rumble seat is simple and effective.

As we step aboard through the walk-through transom, you will notice the cockpit has an interior beam measurement that is over a foot wider than any competitive runabout. This is no illusion. This interior expansion, Free Space Reclamation, is exactly what Cobalt's build process creates. It is most noticeable in the cockpit, which is adorned with seating that wraps around the transom and the port side. The wrap-around yacht style seating is exclusive to a boat her size. Notice the attention to detail in the upholstery with the stitching in perfect harmony. The design of the passenger seat provides a completely innovative convertibility to the cockpit.

At the helm, the aluminum dash panels, stainless switches, and form-fitted vinyl eyebrow are all highlighted by the 5" digital gauges with multi-function displays. The six-speaker Rockford Fosgate stereo with Bluetooth, provides fidelity the audiophiles will appreciate. Feel the leather wrapped wheel, sit in comfort at the helm and utilize the perfectly placed armrest, and ergonomically positioned footrest. Everything fits, everything Cobalt.

The competition doesn't belong in the same room.

*R*5

COBALT BOATS

*R*SERIES

COBALT *R5*

Attention, perfectionists. This one is for you.

Let us introduce you to the Cobalt R5.

No matter the activity of the day, the Cobalt R5 steps up to the plate bringing class and style. At first glance, its exterior profile will catch the eyes of all around. Sleek. Powerful. Aggressive. Notice the graphics – bold, vibrant. But let's not be materialistic here. This legendary ride is worth noting: infectious. That is the word we would use – so infectious that with just one nudge of the wheel and a tight turn, you will be hooked to its smooth nature.

With all the luxury interior appointments that one would expect from a Cobalt, the inside speaks of timeless good taste. The transom is walk-thru, of course. The back-rest is convertible, and the space forward is wide and wider still, followed with yacht-esque wraparound seating. This seating configuration, by the way, belongs only to Cobalt in boats of the R5's size. The twice-wide passenger seat forward makes the cockpit even more flexible in its service of a good time. A console door, elegant in its Makassar grain look and crafted vinyl, opens to a head larger above and all-around than any other boat in the class.

The helm gleams in hand craftsmanship, in oil rubbed ebony Makassar trim and duotone aluminum dash panels and switches of stainless steel and five-inch digital gauges with multi-function readouts and, over all, a form-fitted eyebrow in everlasting vinyl. The wheel wraps in leather: one of the most time-honored of Cobalt traditions, this masterpiece of a steering wheel. Our owners have always insisted on comfort and convenience and accessibility -- "ergonomics" to our designers -- and so the R5's armrests and footrests and controls and cupholders and every last little amenity aboard arrives with a form and a function just too ergo for words. And one more name to drop: the Rockford Fosgate stereo, optimized and ready, as we say, to crank.

Need we say more?

R7

COBALT BOATS

R SERIES

COBALT R7

Fashion meet function.

It is all here. The Cobalt R7 embodies the same highly appointed upholstery, maximized cockpit breadth, seating versatility. This list goes on and on, but the R7 deserves even more gloat, for she is the ultimate bowrider. Hold on, let's get this party started.

The bow area, spacious. Thanks to a term we have deemed "Free Space Reclamation", this interior expansion is exactly what Cobalt's build process creates. It is most noticeable in the cockpit, which is adorned with seating that wraps around the transom and the port side. The cockpit, expansive. The convertibility of the seating configuration, ingenious. The elongated port side seating gives the R7 room for the crew – and with the yacht-style seating, there are many ways to ship-shape the conversation. With the extended length also comes a phenomenal increase in storage area. Bring it on board, and there is a compartmentalized place to stow it away.

And the ride, it is a legendary one. So legendary that it placed Cobalt #1 in ride comfort. Opulent luxury combined with incredible value. The R7 hits the mark with the perfect combination of both. The truth is, Cobalt is the solution when it comes to big water day boating. The R7 reaffirms that truth.

R30

COBALT BOATS

*R*SERIES

COBALT *R30*

We made its function – you make its fun.

The newest addition to Cobalt's award-winning line of bowriders is the all-new R30 – a luxurious open-bow day boat designed with "Free Space Reclamation", Cobalt's exclusive technique for cockpit maximization. Elegant and expansive seating options combine with its endless storage spaces to provide the legendary ride that Cobalt is famous for. The largest of the BR Series, the R30 also features an electric actuated swim step that lowers to just below the water's surface. Also astern, find a beach of a sun-pad – large enough for four sun worshipers. And when it comes time to gather around for some good fun and conversation, make use of our convertible layout in the cockpit. Lounge the seats forward or aft, gather around the teak-adorned cockpit table or convert the area into a couch oasis with filler cushions. The port side features a head compartment that doubles as a changing room. At the helm, the captain will find the glass cockpit design provides a birds-eye-view for a safe and enjoyable day on the water – equipped with Garmin screens that keep your systems and route in view at all times. We cannot forget about the available joystick control with its easy maneuverability and simple operation. That's right – easy and simple – all with a touch of class and style. The Cobalt R30.

R35

COBALT BOATS

R SERIES

COBALT *R35*

Value is defined as the ratio of utility to price. Or are you searching for something more?

The Cobalt R35 is the newest addition to our award-winning line of bowriders. She's a hybrid open-bow day boat designed with the leath-ered luxury of a well-appointed mid-cabin. At first look, the panoramic side windows in the hull bring the outside in, and reflect the envious stares of dockside passersby-ers. Even the windshield invites further investigation of its stainless-steel strength, its wraparound handsome-ness.

The cabin is snug and expansive, with a sofa stretching out there nine full feet and swiftly changeable to a berth capable of sleeping two adults and a three-year-old interloper. The cabin makes full and fine use of its spaciousness, by turns air-conditioned or heated as the day's outing or the week's cruise might require. Inside, a cabinet designed to very specific purposes of entertainment come a 32" LCD HD television, a DVD player, and a play-station hookup. The portside head compart-ment looms enormous, ready to double as a shower seat.

The largest of the R Series, the R35 also features a hydraulically actuated swim platform that lowers to below the water's surface, plus the added depth of the exclusive swim step. Also astern, find a beach of a sun-pad – large enough for four sun worshipers. And when it comes time to gather around for some good fun and conversation, make useful our convertible layout in the cockpit.

At the helm, the captain will find that the glass cockpit design provides a birds-eye-view for a safe and enjoyable day on the water – equipped with Garmin screens that keep your systems in view at all times. We cannot forget about the available joystick control with its easy maneu- verability and simple operation. That's right – easy and simple – all with a touch of class and style. The Cobalt R35.

24SD

COBALT BOATS

SD-SC SERIES

COBALT 24SD

Hello there, gorgeous.

Take a ride on the 24SD and you will notice all the expected Cobalt standards: quickness to plane, smooth ride, stability in turns. And does she wow. Heads will turn in amazement as she glides across the chop with all smiles aboard. You should expect that of Cobalt craftsmanship. And what will exceed those expectations is what lies inside.

From the multi-use sunpad and adjustable backrest, to the plush seating arrangements and well-placed storage compartments, the 24SD features impeccable amenities that make everyone on board feel important. And be sure to invite all your extra buddies, too, because the broad shaped bow has plenty of room for extra seating.

One can choose from the countless list of possibilities – cockpit galley with sink, stand at the bow with filler cushion out, or fill the area for maximum sunning pleasure. Flip down those armrests, sit back and relax. Anchor at the beach and use our convenient beach boarding ladder to do some exploring. Or head to the transom and take a quick dip using the exclusive swim step.

It' all here. Everything you need to keep the party going, at the pace appropriate to your needs of the moment.

25^{SC}

COBALT BOATS

SD-SC^{SERIES}

COBALT 25SC

When the sun shines, it reigns.

On most boats, the party almost always takes place out back. But this isn't like most boats. Nope, we changed things up a bit with this one. The 25SC has the perfect party pad up front due to its wide bow shape. This beach-goer even has a forward entry ladder making it easy to hop off the front when it's time hit the sand for some beach volleyball.

When it's time to mosey on back aboard and take a ride to the next hot spot, you and your guests will be surrounded by stylish comfort and good vibes. That's because with every Cobalt, first-class luxury, convenience and versatility are all non-negotiables.

Let's say the party is starting to fizzle and you just want some peace and quiet. Step aboard and be amazed at how quiet the ride is – not a peep from the engine. That's because this brand new outboard engine was designed to be exceptionally quiet and smooth. Instead, hear the wind going through your hair and your crew having normal, conversation. Pretty nice, huh?

And it wouldn't be a party until the Captain does a little showing off at the end of the day. The impeccable handling of the 25SC makes tight turns at high speeds look like a piece of cake. Ending the day's activities on a high note, to say the least.

26SD

COBALT BOATS

SD-SC *SERIES*

COBALT 26SD

Versatility defined. Luxury exemplified.

Elegance with a dash of rugged decadence and a dose of modesty, the 26SD is ready to accept all challenges, and she does it with style and class. Even more impressive are her inner values. The 26SD will answer your every demand for performance, adaptability, genuine innovation in the service of an entertaining and confident day on the water. Ready with all the wide-open spaces of a deck boat, waiting with all the power and agility of a sport boat, the 26SD is every bit as much about skiing and wakeboarding as about quiet conversation on a leisurely cruise. The 26SD's Carolina flare and high freeboard will create a ride as comfortable in coastal chop as on a mirrored lake, a hull equipped with the extended running surface that delivers quickness to plane and controlled stability in turns. Cockpit and bow alike are multi-taskers, the seating convertible every-which-way, the head compartment large enough to be a changing area, and the stereo with technology of the day.

And while we are at it, let's not forget our beach boarding ladder, which is perfect for going sea shelling. Convenient and easy to deploy, just step over the bow and feel the sand between your toes. As you step toward the transom, the integrated platform with swim step will keep you and all aboard entering and exiting the water safely. It's all here, everything necessary to keep the crew at ease.

With excellent driving dynamics and a high level of user comforts, the 26SD pampers your family and crew with first-class luxury found in every Cobalt. Isn't that why you are here to begin with? You've earned it. The Cobalt 26SD - leadership has its privileges.

A25

COBALT BOATS

A SERIES

COBALT **A25**

Cobalt tradition meets Cobalt innovation. Simply put, the A25.

With the introduction of the A25, Cobalt Boats returned to our roots in marine design, to fundamental enhancements of the boating experience. Amid the pressures of recurring new model years, it's tempting to claim "innovations" that amount to little more than window-dressing. Not here, not in these A-Series boats.

Observe the hull, where only a five-piece mold could produce the functionality of a running surface with consequent reduced bow rise at acceleration, more stability in turns, more comfort at cruise. Walk astern to the deployable swim platform that lowers below the waterline with the press of a button. Take the helm with new Cobalt Touch Tech navigation. Notice the easier boarding on the A25, its revolutionary extensions of storage in both access and convenience, the flexibility of the seating arrangements, the ergonomics throughout.

Your Cobalt dealer will explain further. Expect a discussion you've not heard before.

COBALT

A28

COBALT BOATS

A SERIES

COBALT A28

A ride approaching perfection. Now boarding the A28.

Her profile immediately catches your eye. Her elegant lines and jaw dropping aesthetics can turn even the most discriminating heads. Her inverse hull, whose complexity only yacht makers have seen fit to attempt, creates the sweep of a profile that can come only from Cobalt craftsmanship. Special to the A Series is the hydraulic swim platform which lowers 24" below the water's surface. Perfect for dipping a toe in the cool water, or functioning as a step stool for those eager kiddos jumping aboard.

The A28 interior will wow, as a soft aura of luxury surrounds you and your guests. Buttery smooth vinyls, rich textures, stainless steel accents all marry together to create this one of a kind model. The bow is broader in the beam, roomy and then some, with immediately reconfigurable seating. More practicality here too, in the added head compartment and yet more storage.

In the quantum leaps in technology, among all its genuinely new features, the A28 shows forth hour upon skilled man-hour of refined Cobalt craftsmanship – in the upholstery, at the helm, in the rubbed perfection of the gelcoat – and the payoff comes in years of reliable, worry-free enjoyment.

Now that's worth turning some heads.

A40

COBALT BOATS

A SERIES

COBALT A40

Luxury never felt so exhilarating. Here comes the A40.

A sport yacht whose looks are just as striking sitting idle as they are blasting across the open sea. A day boat that has all the power and agility for a jam-packed day on the water and an evening cruiser that has all the comfort and luxury for those overnight adventures.

Her first impression: iconic. At first glance, it is easy to mistake this magnificent watercraft as an import. But what is revealed underneath makes her a Cobalt. Her refined styling reveals a boat constructed with detail, by the hands of experienced craftsmen, fifty years in the making.

Her performance: perfection. Let us describe the feeling from her throttle. At the helm, bolts of power are felt from her twin dual propeller stern drives. Features such as the reverse chines and extended running surface both help the boat achieve lift and pinpoint handling. And the automatic trim tabs make even a novice captain seem like a salty veteran.

Her features: jaw-dropping. The hydraulic swim platform lowers down one foot below the waterline with the press of a button. A beach of a sun pad sits centered atop the engine compartment with matching backrests that flip forward and aft, so you can have a traditional forward-facing transom bench in the cockpit or a rear-facing lounge when the boat's at rest. Twin 12" multi-function touch screens are seen at the helm featuring navigation charts, real time tide tables, engine functions and optional radar.

Her foundation: luxurious. Heading below deck, one will notice the galley with a real granite counter top and a trendy glass washbowl sink. The whole array is designed more for weekending than long-distance cruising, with a midship cabin that features opposing love seats for viewing the flat screen on the bulkhead. Filler cushions convert it to a berth. The forward dinette also converts to a V-berth with filler cushions. Overhead hatches and hull-side ports provide plenty of natural light.

Day boat or weekender, the A40 can handle it all, with style and class.

A40 Coupe

COBALT BOATS

ASERIES

COBALT *A40* Coupe

It just keeps getting better, the *A40* Coupe.

The A40 Coupe, the grand performance day boat that features unmatched elegance, luxury and class. Stemming from the same foundational roots as her sister, the A40 Hard-Top, the Coupe version features a sleek windshield and integrated top design. The 12' beam provides ample roominess for the entire crew and their gear. Bring it on board and you will find the perfect nesting place for each and every item necessary for big-day boating. The Coupe features impeccable exterior lines accenting the fiberglass coupe top and navigation equipment shelf, a convenient sliding sunroof, and an available retractable shade integrated seamlessly into the design. The A40 Coupe provides Cobalt customers the freedom of choice when it comes to the style of day boating they prefer: the open air feel of the hard-top or the comfortable convertibility of the coupe. The beauty is, the choice is always yours.

WSS
SURF

COBALT BOATS

Cobalt surfing perfection.

Until now, wake surfing boats have compromised ride, comfort, top speed performance, and low speed maneuverability. That was before the WSS SURF from Cobalt. Combining Cobalt's award-winning smooth ride and the performance advantages of a stern drive, coupled with the enormous wake making capabilities of a surf boat - this was the perfect challenge! Now perfectly executed. And without compromise.

The WSS Surf combines a proven deep v hull design with innovative design to exceed the riders' demands. We developed a world class "wake maker" thanks to our patent pending SURF control system - which quickly and automatically tunes the boat's attitude and speed to the optimal SURF configuration - on either side of the boat. A fully customizable wake that provides smooth transitions, a wide push zone, and a solid pop. Keep the boat evenly weighted and switch the wave from each side in seconds without the need to re-distribute ballast and people.

VOLVO PENTA FORWARD DRIVE

Volvo Penta does it again with the all-new Forward Drive propulsion system. Uniquely engineered with two forward-facing counter-rotating props that pull the boat through the water rather than pushing it, Forward Drive gives small-craft leisure boaters new found versatility. Whether wakesurfing, wakeboarding or simply cruising, Forward Drive allows boaters to enjoy endless days of fun without sacrifice. Armed with power trim and an enlarged trim plate, drivers can easily customize their wake for watersports, then level off for smooth cruising.

Surfing Made Simple

With the touch of a button Cobalt's automated computer control surf system adjusts the Bi-Axis Surf Tabs to create the optimum surf wake either left or right. No need to transfer ballast load between tanks to achieve optimum surf wake.

- Fill ballast tanks
- Set GPS directed cruise control to desired speed
- Select surf control left or right
- Throttle up and surf

On Plane with Full Ballast

In Performance Mode the surf tabs automatically deploy and adjust for a quick hole-shot through to running speed, easily getting the boat on plane with full ballast. No need to empty tanks for a quick run at speed.

Performance of Total Trim Control

Exceptional wake surfing doesn't come at a compromise to Cobalt's softer, drier, faster ride. With the versatility of full-range power trim all the control and efficient operation remains. Drivers can easily customize the wake for surfing, wakeboarding or smooth cruising. Plus, Volvo's Forward Drive is uniquely engineered with two forward-facing counter-rotating props, which position the propellers to the front of the drive unit, well under the boat.

The Cobalt WSS SURF

The best aspects of boating by providing a world-class ride combined with a superior surf wake.

Compromise Nothing!

WSS
WATER SPORTS SERIES

COBALT BOATS

We just amplify the waves that life already gives you.

Fused with the intrinsic DNA of traditional Cobalt models and the wakeboarding advantages of a sterndrive, we present to you the Water Sports Series. WSS stands for everything that's fun on the water! Flexibility of speed when you need it, and power when demanded, the WSS delivers day in and day out. Now you hold the power to adjust wakes with the touch of a trim switch, giving both captain and boarder complete flexibility. What's in the name of WSS?

Water Sports Tower Choices with Bimini Top – They are solid, sturdy and pro-athlete strong with life-long good looks, heavy-gauged anodized aluminum and stainless steel, precision-machined billet fittings. The WSS towers and arches are designed with integrated billet board racks for your favorite boards and with a flip of a swivel-lock, swing the racks inboard for easy access. And we can't forget the optional tower lights, and driver's rear-view mirror, and directional speakers with 360 degree flexibility, well, you see this is not just another wakeboard want-to-be.

Exterior Graphics – Our Design Your Dream tool has thousands of color combinations to create your own masterpiece. All showcased by the chrome WSS hull emblem and a WSS badge at the transom. Customize your Cobalt simply because – you deserve it.

Interior Styling – WSS customization continues inside with finishing touches that include WSS badging and a choice of color-matched piping complimented by our champagne vinyl, an offering exclusive for the WSS. Finally, the dash panel is highlighted in a carbon tone for the finishing touch.
